

PIPE LINE LAID 1,600 FEET

Work is Being Pushed Along Fast—Pressure From Present Service Has Improved in Past Two Days—Concrete Foundation For Machines.

As was expected, better progress was made on the laying of the 12-inch pipe to Trading Cove brook Wednesday, and there is now in the ditch and connected 1,499 feet of the pipe line. Work is under way at both ends, which allows better progress, and good starts have been made by both gangs of workmen. On this end the pipe line is laid in a parallel line from the base to the Loring property, while on the brook end it is laid up to a point near Willow brook, which it will pass under.

The lumber for the pumping house has all been taken to the site, being ready to be put in place as needed by the contractors, Peterson & Young, and that job will soon be finished. The concrete bases for the pipes are also ready. The well is completed and ready for use when needed.

There is a fine stream coming in from Meadow brook at Fairview, on Wednesday, but practically all the water being received from the two water-sheds is going directly into the main, the amount coming in not being suffi-

cient to cause any supply to collect. While much of the snow has melted, there still remains a large quantity of the watershed, which will further add to the supply as soon as it is removed. Horace Johnson, director of the company, will be a very active man and nothing about the work will escape his notice. One of the recent visitors of our local men and the moderate weather has been great, and many are getting water who have been cut off, and the pressure is better where the service has been continued. On Wednesday the pressure was up to 30 pounds during the day while during Thursday night it went to 10 pounds.

In some instances about the city, water has been drawn at 100 feet when water has been drawn at 50 feet, so if cleared with some ease. It quickly cleared, however. A resident who has had the same experience with the water in Chicago stated that he was told it was caused there by the pumping of the water and the pressure.

OPEN HOUSE CLUB

REHEARSING FOR PLAYS.

Dressed That Partners and Fennel Will Be Put on This Winter.

Splendid reports are given out concerning the progress that is being made in the rehearsals for the dramatic productions that are to be given under the auspices of the Open House Club, the Norwich public at an early future date. These rehearsals are carried on under the direction of Joseph C. Davis, who is in entire charge of the affair.

There will be two parts to the programme, the first being a comedy in three acts, entitled *Partners*, by Henry J. Byron, author of *Our Boys*, and the second a dramatic one, also called *Fennel*. Both are professionals in every respect, and exceptional care is to be taken in the production. Such a programme is to be found all through such a programme in charge of local talent, has not been presented before the Norwich public in a number of years.

The comedy *Partners*, in three acts, calls for seven characters, and from beginning to end it is filled with sharp sayings and crisp repartees. The comic part is to be given a more elaborate and an eccentric provision in all affecting a laugh. After many cross purposes, however, all ends happily. *Fennel* contains a romantic story of a violin maker of Cremona. This is carried out along entirely different lines from that which precedes it and affords a pleasing variety to the evening's programme.

The time and place for this has not yet been announced but will be within a short time.

ITCHING IRRITATION.

Worst Form of Skin Trouble Quickly Cured by Inexpensive Treatment.

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disagreeable greasy ointment. Try Hoka, a pure and simple skin food, that is guaranteed to contain no greases or acids and which is so cleanly that it does not soil the linens.

Its power to instantly relieve any irritation of the skin and make it soft, white and beautiful is almost miraculous.

Not only are minor skin troubles like pimples, blackheads, acne, bather's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are cleaned and healed by this wonderful skin food.

In order that any one may try Hoka at small expense, The Lee & Osgood Co. are willing to offer a liberal share of 25¢ and in addition guarantee to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

SALE AND SUPPER

BY SEDGWICK RELIEF CORPS

Large Number in Attendance Through Afternoon and Evening.

With Mrs. Lydia K. Perkins, chairman of the executive committee, in charge, a successful sale and supper was held at the Sedgwick Auditorium yesterday afternoon and evening, and the proceeds of the Women's Relief Corps. Good sized crowds frequenting the place from the time the doors began at 1:30 o'clock until the close, and all of the articles that were placed on exhibition found a ready sale. During the supper hour nearly 300 people remained in the upper rooms of the Sedgwick Auditorium and enjoyed an old fashioned supper. This lasted from 5:30 until 7:30.

All the rooms were attractively decorated, and the several tables, where choice wares of a neighboring variety were offered for sale, were lined up in such a manner as to show them off to the best advantage. Green and red, suggestive of the Valentine season, were the prevailing colors used, and were arranged in a most artistic manner and brought forth much decorative material from which valentines were made. The display of flowers, which were dressed in various and varied ways, the ice cream booth was in white, effectively representing a snow scene.

At the right of the stand, which a plaque on one side advertising "The Spring Water of Jordan Brook."

Those in charge of the several tables were as follows: Fleury articles, Mrs. Mary E. Jewett; lace machine embroidery, Mrs. Anna M. Wright; Mrs. Anna M. Marlowe; Mrs. Wm. Thompson; Mrs. Annie A. Deeks; candy, Mrs. Belle E. Bailey; Miss Florence Robbins; Mrs. Francis E.
